COURSE DESCRIPTION

This symposium will provide a multidisciplinary forum on the differential diagnosis, common etiologies, and state-of-the-art treatment options for facial pain. Attendees will receive information on how to face common presentations and disease entities but also more challenging cases.

TARGET AUDIENCE

General Practitioners, Internists, Neurologists, Pain specialists, Radiation oncologists, Head and Neck/Rhinologist surgeons, Dentists, Maxillofacial surgeons, Neurosurgeons, Radiologists, Residents of all mentioned specialties, Nurses, Nurse Practitioners, Physician assistants, and Neurobiologists.

COURSE OBJECTIVES

At the conclusion of this activity, participants should be better able to:

- Describe the classification of facial pain syndromes
- Understand the functional anatomy of facial sensation and the physiology of pain
- Understand the various imaging modalities to investigate facial pain
- Review the clinical approach and the differential diagnosis of facial pain from the perspective of the neurologist, neurosurgeon, head and neck/rhinologist, and orofacial pain specialist
- Discuss diagnosis-specific treatment strategies and related prognosis including oral medication, botox treatment, percutaneous treatments, radiation treatment, microvascular decompression, and alternative treatment options

ACCREDITATION

The Office of Continuing Medical Education, David Geffen School of Medicine at UCLA is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Office of Continuing Medical Education, David Geffen School of Medicine at UCLA designates this live activity for a maximum of 6.75 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

This CME activity meets the requirements, under California Assembly Bill 1195, continuing education and cultural and linguistic competency.

Disclosure The FDA has issued a concept paper which classifies commercial support of scientific and educational programs as promotional unless it can be affirmed that the program is “truly independent” and free of commercial influence. In addition to independence, the FDA requires that non-promotional, commercially supported education be objective, balanced, and scientifically rigorous. The policy further states that all potential conflicts of interest of the CME staff and faculty be fully disclosed to the program's participants. In addition, policy of the Accreditation Council for Continuing Medical Education now mandates that the provider adequately manages all identified potential conflicts of interest prior to the program. We at UCLA, fully endorse the letter and spirit of these concepts.
